SECURY Automatic Door Lock

for lever handle with North American Cylinder

FERCO

Unlocked

Locked

USE WITH LEVER HANDLES ONLY

SECURY Automatic Door Lock for Lever Handle

Description	Backset	Color	PU	Part Number
Door lock for 6' 8" doors	45mm	SS	5	6-35856-01-R-8B
Door lock for 8' doors	45mm	SS	5	6-35856-02-R-8B
Door lock for 6' 8" doors	50mm	SS	5	6-36033-01-R-8B
Door lock for 8' doors	50mm	SS	5	6-36033-02-R-8B
Door lock for 6' 8" doors	60mm	SS	5	6-35565-01-R-8B
Door lock for 8' doors	60mm	SS	5	6-35565-02-R-8B

PU = Packaging Unit

Simply Close the Door!

As soon as the door pulled shut, the Automatic latchbolts instantly throw 20mm and are secured to prevent them being forced back. By turning the key or the knob, the center deadbolt will engage and lock the top and bottom latchbolts to become a **3-deadbolt locking system.**

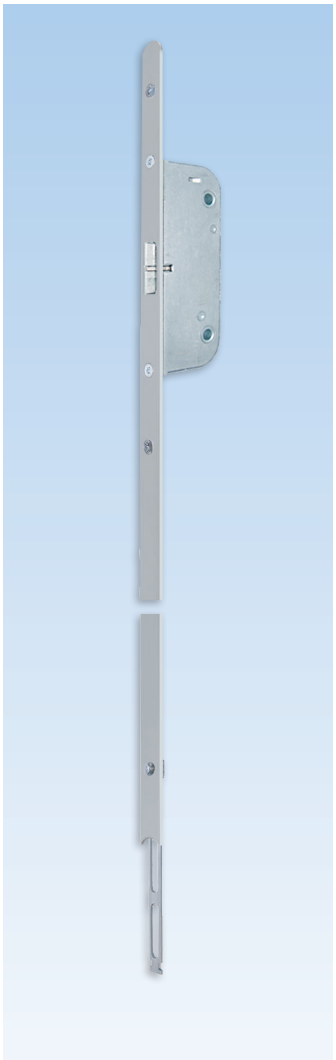
Additional information

- 3-point, one piece locking system for 6' 8" and 8' doors
- Heavy duty mortise construction with reinforced lever return spring system
- Locking by US-cylinder with 90° turn of key or thumb-turn
- No lifting of handle to engage locking points
- Top and bottom Automatic latchbolt projection from 10 to 20mm:
  - Provides security
  - ProtectsS the door
- 1" (25mm) throw on deadbolt with baby sitting function
- Non handed, latch easily reversible
- 8mm square spindle
- 92mm centres (spindle to cylinder)
- Handle height variable (36" recommended)
- 16mm stainless steel faceplate with radius ends for easy installation and cleaner look
- Same hardware groove detail throughout our entire door lock program (jig, router base and bits available)
- Various extension with additional lock point is available for doors taller than 8'
- To be used with lever handle set (US-cylinder above handle)

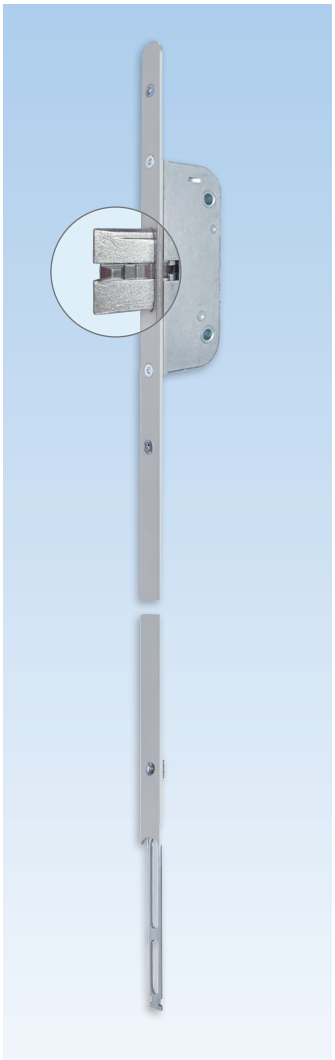
Information in this document can be modified without notice.

Automatic Extension

with Additional Latchbolt



Unlocked



Locked

Extension with Additional Latchbolt

Description	Color	PU	Part Number
525mm extension with rounded end	Stainless Steel	5	6-33479-04-0-8B
800mm extension with rounded end	Stainless Steel	1	6-C5078-00-0-8B
1050mm extension with rounded end	Stainless Steel	1	6-C5062-10-0-8B
1325mm extension with rounded end	Stainless Steel	1	6-C5062-13-0-8B
	* = Color	PU = Packaging Unit	

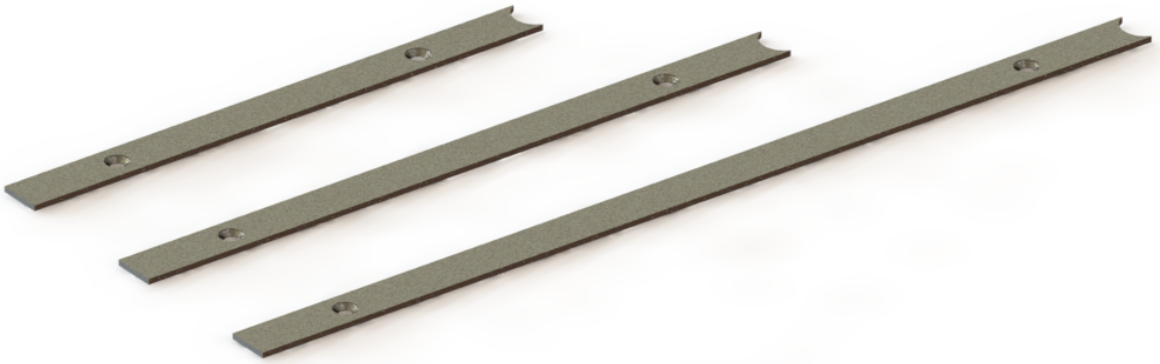
Additional information

- Tapered latch always engaging in strike plate
- 16mm stainless steel faceplate with radius end for easy installation and cleaner look
- Additional locking point for doors taller than 8'
- To be used with GU-SECURY Automatic door Locks

Information in this document can be modified without notice.

Filler pieces

Round to square



Filler Pieces

Description	PU	Part Number
Filler piece 193,7mm	1	9-C4340-19-0-8B
Filler piece 245,9mm	1	9-C4342-24-0-8B
Filler piece 342,3mm	1	9-C4342-34-0-8B

Additional information

- Made of stainless steel
- To be used with radius end locks and extensions

Formulas to select filler length:

- Bottom:
  L = Handle height - 671,7mm
- Top 1590mm lock:
  L = Door height - handle height - extension(s) length - 920,7mm
- Top 1900mm lock:
  L = Door height - handle height - extension(s) length - 1230,7mm

Information in this document can be modified without notice.

Mortise Door Lock

Mortise Door Lock for Lever Handle

Description	Color	PU	Part Number
Door lock with 45mm backset	Stainless Steel	10	6-C4893-45-0-8
Door lock with 50mm backset	Stainless Steel	10	6-C4893-50-0-8
Door lock with 60mm backset	Stainless Steel	10	6-C4893-60-0-8
	* = Color	PU = Packaging Unit	

Additional information

- Heavy duty mortise construction with reinforced lever return spring system
- Locking by US-cylinder with 90° turn of key or thumb-turn to engage the 1" (25mm) deadbolt
- Non-handed, latch easily reversible
- 8mm square spindle
- 92mm centres (spindle to cylinder)
- 16mm stainless steel faceplate with radius ends for easy installation and cleaner look
- Same hardware groove detail throughout our entire door lock program (jig, router base and bits available)
- Ideal for exterior and interior door applications
- To be used with lever handle set (US-cylinder above handle)

Information in this document can be modified without notice.

Introduction

FERCO

Ferco lever handle sets are uniquely designed to operate on multipoint door locks. Our handle sets withstand the rigourous everyday operational wear & tear of engaging or disengaging multiple lock points. **Our handle sets are designed for long term use!**

- **Patented handle snap-rings** allow for handles to be shipped non-handed. The manufacturer no longer has to worry about ordering left or right, and will save on inventory.
- **Handle setscrews to fasten spindles** combined with the snap-ring will ensure the handle will stay tight on the door for a long time.
- **Self centering 8mm split Spindle** to make sure it is always centered into the door.
- **Longer Screw ports on escutcheons:** Ferco has added an interior sleeve port that will guide the M5 mm screw straight to the opposing exterior screw port.
- **Exterior O-ring on handle shaft** to prevent water from entering around the exterior handle.
- **Washers between handle and escutcheon** making sure the handle operation is and remains smooth.
- **Escutcheon Foam gasket** to prevent air and cold.
- **Rubber gasket** (Order separately) to prevent air and water leakage around the exterior escutcheon.
- **Schlage Cylinder with one tail for both 1 ¾" and 2 ¼" thick doors**
- **M5 handle set screws to fasten the escutcheons** included in every handle set kit.
- **Handle above cylinder or handle below cylinder option**
- **FERCO handle sets available** in Solid Brass or economical zinc die-cast material with selections in many plate designs, lever styles and finishes.

Information in this document can be modified without notice.

- Locking/Unlocking from inside only

Construction Key

Description	Color	PU	Part Number
Construction key	Black	10	9-U0001-01-0-0
	* = Color	PU = Packaging Unit	

Additional information

The construction key is available for those who prefer to install the decorative hardware trim and lever sets on doors after the construction has been completed. Installing the escutcheon plates and levers in the final stage of construction prevents the decorative trim from becoming scratched or damaged.

The construction key has been designed to accommodate multipoint door hardware (8mm square), tilt-turn hardware (7mm square) and lift-slide hardware (10mm square).
